IN THE CLAIMS

- 1. (currently amended) A cosmetic composition, comprising a gelled block copolymer having at least one hard segment and at least one soft segment; and—a silicone elastomer powder comprising a silicone elastomer core coated with a silicone resin; and an aqueous phase, wherein said powder is swelled with a swelling agent.
- 2. (original) The composition of claim 1, wherein the hard segment comprises polymethacrylate, polyacrylate or polystyrene.
- 3. (original) The composition of claim 2, wherein the hard segment comprises polystyrene.
- 4. (original) The composition of claim 1, wherein the soft segment comprises an ethylene/propylene copolymer, an ethylene/butylene copolymer, polybutylene, polyisoprene, an hydrogenated butane polymer, an hydrogenated isoprene polymer, butadiene, and mixtures thereof.
- 5. (withdrawn) The composition of claim 4, wherein the soft segment comprises an ethylene/propylene copolymer.
- 6. (original) The composition of claim 4, wherein the soft segment comprises an ethylene/butylene copolymer.
- 7. (withdrawn) The composition of claim 1, wherein the block copolymer has a di-block configuration.
- 8. (withdrawn) The composition of claim 7, wherein said block copolymer comprises styrene-ethylenepropylene.
- 9. (withdrawn) The composition of claim 7, wherein said block copolymer comprises styrene-ethylenebutylene.

- 10. (withdrawn) The composition of claim 7, wherein said block copolymer comprises styrene-butadiene.
- 11. (withdrawn) The composition of claim 7, wherein said block copolymer comprises styrene-isoprene.
- 12. (original) The composition of claim 1, wherein said block copolymer has a tri-block configuration.
- 13. (withdrawn) The composition of claim 12, wherein said block copolymer comprises styrene-butadiene-styrene.
- 14. (withdrawn) The composition of claim 12, wherein said block copolymer comprises styrene-isoprene-styrene.
- 15. (original) The composition of claim 12, wherein said block copolymer comprises styrene-ethylenebutylene-styrene.
- 16. (withdrawn) The composition of claim 12, wherein said block copolymer comprises styrene-butylene-ethylene-styrene.
- 17. (withdrawn) The composition of claim 12, wherein said block copolymer comprises styrene-ethylenepropylene-styrene.
- 18. (withdrawn) The composition of claim 1, wherein said block copolymer has a radial or star block configuration.
- 19. (withdrawn) The composition of claim 18, wherein said block copolymer comprises ethylene-propylene-styrene.
- 20. (original) The composition of claim 1, wherein said at least one hard segment has a glass transition temperature of at least 60 °C.

- 21. (original) The composition of claim 1, wherein said at least one soft segment has a glass transition temperature no higher than room temperature.
- 22. (original) The composition of claim 21, wherein room temperature is 25 $^{\circ}\text{C}$.
- 23. (original) The composition of claim 1, wherein said gelled block copolymer comprises an oil, hydrocarbon or an ester.
- 24. (original) The composition of claim 23, wherein said hydrocarbon comprises isododecane.
- 25. (original) The composition of claim 1, wherein said gelled copolymer is present in an amount of about 0.1% to about 95% of said composition.
- 26. (original) The composition of claim 1, wherein said gelled copolymer is present in an amount of about 0.5% to about 70% of said composition.
- 27. (original) The composition of claim 1, wherein said at least one hard segment is present in an amount of about 10% to about 40% of total weight of said copolymer.
- 28. (original) The composition of claim 1, wherein said at least one hard segment is present in an amount of about 15% to about 30% of total weight of said copolymer.
- 29. (original) The cosmetic composition of claim 1, wherein said swelling agent comprises a linear or cyclic polydimethylsiloxane.

- 30. (withdrawn) The cosmetic composition of claim 29, wherein said polydimethylsiloxane comprises a cyclomethicone.
- 31. (original) The cosmetic composition of claim 29, wherein said polydimethylsiloxane comprises a dimethicone.
- 32. (withdrawn) The cosmetic composition of claim 1 wherein said swelling agent comprises a phenylmethicone.
- 33. (withdrawn) The cosmetic composition of claim 1 wherein said swelling agent comprises a fluorinated silicone.
- 34. (original) The cosmetic composition of claim 1, wherein said silicone resin comprises a polyorganosilsesquioxane.
- 35. (original) The cosmetic composition of claim 1, wherein said silicone elastomer core is unfunctionalized.
- 36. (withdrawn) The cosmetic composition of claim 1, wherein said silicone elastomer core contains pendant functional groups.
- 37. (withdrawn) The cosmetic composition of claim 36, wherein said functional groups comprise fluoroalkyl groups.
- 38. (withdrawn) The cosmetic composition of claim 36, wherein said functional groups comprise phenyl groups.
- 39. (original) The cosmetic composition of claim 1, further comprising a liquid fatty phase comprising a polar oil, an apolar oil, or a mixture of said polar and apolar oils.
- 40. (original) The cosmetic composition of claim 1, further comprising a liquid fatty phase comprising a hydrocarbon.

- 41. (original) The cosmetic composition of claim 1, further comprising a liquid fatty phase comprising an ester.
 - 42. (canceled).
- 43. (original) The cosmetic composition of claim 42, further comprising an emulsifier, and which is in the form of an emulsion.
- 44. (original) The cosmetic composition of claim 1, which is anhydrous.
- 45. (original) The cosmetic composition of claim 1, further comprising a film-forming agent.
- 46. (original) The cosmetic composition of claim 1, further comprising a wax.
- 47. (original) The cosmetic composition of claim 1, further comprising a sunscreen agent.
- 48. (original) The cosmetic composition of claim 1, further comprising a plasticizer.
- 49. (original) The cosmetic composition of claim 1, further comprising an additive.
- 50. (original) The cosmetic composition of claim 49, wherein said additive comprises a pigment.
- 51. (original) The cosmetic composition of claim 50, wherein said pigment is treated.
- 52. (original) The cosmetic composition of claim 51, wherein said pigment is treated with an amino acid.

- 53. (original) The cosmetic composition of claim 1, which is in the form of a solid, a paste, a gel or a cream.
- 54. (original) The cosmetic composition of claim 1, which is in a molded form.
- 55. (original) The cosmetic composition of claim 1, which is in the form of a stick or dish.
- (original) The cosmetic composition of claim 1, which is in the form of a powder.
- 57. (original) The cosmetic composition of claim 1, wherein ratio of amount of said silicone elastomer powder to said gelled block copolymer is from about 0.1 to about 9.0.
- (original) The cosmetic composition of claim 57, wherein the ratio is from about 0.5 to about 5.0.
- 59. (original) The cosmetic composition of claim 57, wherein the ratio is from about 1.0 to about 4.0.
- (original) The cosmetic composition of claim 57, wherein the ratio is from about 1.0 to about 3.0.
- 61. (currently amended) A method for care, make-up or treatment of a keratin material, comprising applying to the keratin material a composition comprising a gelled block copolymer having at least one hard segment and at least one soft segment; and—a silicone elastomer powder comprising a silicone elastomer core coated with a silicone resin; and an aqueous phase, wherein said powder is swelled with a swelling agent.
- 62. (original) The method of claim 61, wherein the keratin material comprises lips.

Application No.: 10/816,574 Docket No.: LOREAL 3.0-038

63. (original) The method of claim 61, wherein the keratin material comprises skin.

64. (original) The method of claim 61, wherein the keratin material comprises keratinous fibers.
